A Question of Veracity From information received by a promi nent cotton shipper, we yesterday stated that he had shipped tiny bales of cotton to Louisville, where he received through bills of lading to New York at \$1 20. The statement has brought out the following letter from Major Bransford, the General Agent of the Louisville and Nash-

ville railroad : NASHVILLE, TENN., Oct. 22d.—Chas. W. ANDERSON, GENERAL FREIGHT AGENT NASHVILLE AND CHATTANOOGA RAIL-ROAD-DEAR SIR: The statement contained in the morning issues of the Republiroad yesterday at \$1 40 per 100 pounds to New York, is incorrect. The Banner says our rate to Louisville is \$1 per bale. This is a mistake. Our rate to Louisville is \$1 25 per bale. The rate from Louisville to New York is \$1 40 per 100 pounds, and not \$1 20 per 100 pounds as stated in these papers. I have before me the cotton tariff, date to October 19th, signed by Thomas Carse, General Freight Agent Jefferson-ville railroad, and W. G. McCoy, General reight Agent Mail Line, making the rate

rom Louisville \$1 40 to New York, \$1 30 o Philadelphia, and \$1 20 per 100 pounds I have also before me a letter from Mr. Van Alstin, General Freight Agent of this oad, dated yesterday, stating substantially that the rate from Nashville cannot be reduced or "cut" by consigning entire ship-ments to any one in Louisville. These gentlemen, I believe, were all delegates to the Memphis Convention, of which you were President, that established existing rates rom Nashville to the Atlantic cities. All the ines between and leading from Memphis Cairo, Evansville, Louisville and Cincinnati, I understand are pledged to maintain the rate. No agent representing lines leading over this road has authority to cut the rate except by my permission, and my instructions are promptly to mantain them.

Yours, truly, JNO. S. BRANSFORD, General Agent.

be expected in the supply to come from that State. The corn erop in the blue grass region has been excellent, and stock hogs have been plenty. Some purchases have been made at \$8 75@10 for the first balf of November delivery, but these rates are evidently above the views of packers. Many feeders and dealers have been looking around here the past ten days, and are asking \$8 25@8 50 gress, but the prevailing impression with packers is that these rates, net, are the utmost points that safety would indicate. But the very small supply of old meat on hand, together with far prospects that England will buy largely, make feeders sanguine and quite confident that rates above those paid last season will be sustained. Thus, on the other hand, the strong probability that gold will de-cline, and the well-known fact that English cline, and the well-known most and dealers will not buy largely at high prices, notwithstanding the scarcity in that country, make packers timid. It is pretty clear that confeet between curers and feeders that the contest between curers and feeder regarding prices will be somewhat pro-
